Crt. No.	Checked Item	Doc. page/line	Comments/ improvements
1	D_01	Requirements document	No information given on the format of the data
2	D_01	Requirements document	What “week” means is not clear enough - is it a calendaristic week or is it laboratory-wise (1 week meaning one lab later)
3	D_02	Requirements document	No specification in regard to what information should be saved in the “Catalog” file
4	D_01	Requirements document/F0	CRUD operations not fully specified (what kind of persistence, what kind of files)
5	D_01	Requirements document/F1	The concept of theme is not clarified, is it theme = homework or just a topic?
6	D_01	Requirements document/F10	”criteria” is too vague
